WAAFL INTEGRATED FOOTBALL PROGRAM

Established in 2011, Integrated Football is a participative program for people with intellectual disabilities. The program allows players sixteen years and over to play AFL with their local WAAFL Club. Currently eight clubs with nine teams play a regular program of matches throughout the season. The Program continues to evolve and grow providing opportunities for more clubs to become involved with this terrific community initiative. The WAAFL seek your interest and support to further the Program in season 2019.

If you and your club would like to know more about Integrated Football, please contact Greg Gilbee on the numbers above or by email.
