- Haven't played football for three seasons
- Received a PPV reduction through loyalty for their club

PLAYER POINTS REDUCTION – REWARDING LOYALTY

For players who are valued at more than 1 point and remain at the club will reduce by one point for each season, beginning in their third consecutive season at the club.

(Example 1)

A 4-point ex WAFL League player will reduce to a;

- 3-point player in his 3rd season
- 2-point player in his 4th season
- 1-point player in his 5th season

(Example 2)

A 2-point Other Community Club player will reduce to a;
1-point player in his 3rd season

If any club considers that the points allocated to a player is inappropriate they can submit an appeal to the League General Manager as soon as they have been advised of his points. The Match and Permit sub-committee will be responsible for confirming the correct number of points.

PLAYER POINTS REDUCTION – 5 YEARS SINCE HIGHEST LEVEL (NOT LOYALTY APPLICABLE)

A player will be graded at the highest points value that they have achieved in the last 5 years*

For every season following their fifth season they will reduce by one point.

(Example)

A 4 point WAFL League Player who last played WAFL League in season 2014 will be valued a 4 point player in 2015, 16, 17, 18.

In 2019 he will reduce by 1 point to a 3-point player.

*The player will also receive a points deduction for club loyalty should they remain at a particular club for three or more seasons. Club loyalty reductions are only applicable at the club that he receives them.

NUMBER OF POINTS PER CLUB

The number of points per club is to be set by the league at the end of the previous season. The league can set alternative PPV caps for each club to address inequities within the competition and to create as even a competition as possible.

When considering differing Player Points allocations per club the league should take into consideration;

- Team performance in season recently concluded
- Team success/overall performance in previous five seasons
- Community population size

IMPLIMENTATION - FOOTYWEB

A list of the "player points" for each player at a club who played senior grade (either league or reserves) in the previous/current season. The list will be updated as new players come to the club, or existing players play league for the first time.

Every player that is currently a member of, or transfers into, a club will be allocate a Player Point Value on their Footyweb profile by a league administrator.

The league can ensure clubs do not exceed their Player Point ceiling by;

- Setting a team cap ceiling within the competition configuration.
- Modifying Footyweb teamsheets to include PPV that are unable to be submitted should a team list exceed their allocated amount.

- Add a minimum number of players allowed to prevent clubs playing with fewer numbers to maximise the points they can utilise (ie fit more players with higher points by playing one or two less players)

PENALTIES

If a club wins the game and is found to have exceeded the points limit;

- loss of premiership points
