Profile Matching

Profile Matching is the process of PlayHQ identifying the participant's profile from SportsTG, and allowing the participant to claim the profile. **It only needs to happen once.**

Once claimed, all games, goals, statistics and tribunal history will be loaded onto the PlayHQ profile.

 Players create PlayHQ profile and begin registration with club. Upon completion of "Participant Details", they will be alerted to a current profile matching their registration. If their email address is the same, they will be able to click "Claim Profile".
