INTRODUCTION

The WAFL Rules & Regulations reflect the following guiding principles:

- To promote, develop, and ensure the effective management of WAFL and WAFLW football matches and recognise the WAFL and WAFLW as the pre-eminent leagues in Western Australia;
- To recognize that the WAFL and WAFLW Competition sits within a national framework and is commensurate with other State Leagues;
- To create an exciting and even competition which is appealing to the public;
- To ensure the WAFL and WAFLW is a broadcast quality competition;
- To adopt good governance and integrity within the WAFL and WAFLW competitions;
- To ensure Player welfare is paramount;
- To administer natural justice in Arbitration and Tribunal hearings;
- To ensure transparency and fairness in transfer rules and Total Player Payments;
- To strive for consistency of coaching standards and the development of Players in the Colts and Rogers Cup competitions;
- To encourage good sportsmanship; and
- To providing a safe, fair and inclusive game day environment for all involved.

The WAFC conducts the WAFL and WAFLW competitions in accordance with its power under the Constitution of WAFC.

In 2024, the purpose of the WAFL Competition was established through consultation with WAFL Clubs, resulting in the development of a formal Competition Design Criteria:

Purpose of the WAFL Competition:

- Community and family focused sporting competitions.
- Local entertainment with up close access for fans to the highest level of community football and future AFL stars either in person or via streaming.
- An aspirational collection of competitions that facilitates individuals making the most of their personal and football potential including a pathway to senior WAFL football and the AFL.

Competition Design Criteria

- Fans of a well-managed club will have a reasonable expectation that their Club can play finals within four years and be contending for a premiership within 8-10 years.

These Rules & Regulations:

- have been drafted in an effort to simplify the Player Rules and Regulations and By-Laws that have evolved since first published on 14 February 1986 and the Country Zoning Regulations introduced in 1972;
- contain 'introductory boxes' which provide background, context and meaning to the Rules that follow;
- contain policies in the Schedules which form part of the Rules & Regulations;
- have been drafted with input from the WAFL Clubs;
- will refer back to preceding versions of the Rules and Regulations should there be any dispute regarding the interpretation of the current Rule and Regulations; and
- may be amended by WAFC from time to time as it, in its absolute discretion, deems fit.

The WAFL and WAFLW competitions play under the Laws of Australian Football as determined by the Australian Football League. These Laws are updated annually and published by the AFL. The WAFC may deviate from these Laws in order to provide for Laws which better suit the competitions.

All Players must indicate their willingness to abide by the Rules and Regulations by signing the Competition Registration Form and the Playing Contract, in accordance with these Rules with their WAFL Club.

Each rule shall be read and construed independently of the other provisions of these Rules. Parts of a rule may be valid if other parts or provisions of the rule were deleted or adjusted.

The WAFC will act in the best interests of the competition, without undue formality and without being bound by the rules if they consider it is not in the best interests of the competition.

Any matter of any kind whatsoever not dealt with or provided for in this document may be dealt with in such manner as the WAFC determines.

A copy of these WAFL and WAFLW Rules and Regulations will be provided on the WA Football Website www.wafootball.com.au which may be updated from time to time.

1 REGISTRATION OF PLAYERS

The West Australian Football League (**WAFL**) registration system aims to promote the inclusion of geographically Zoned Players on WAFL Club lists and to limit the recruiting of Players that are external to Club boundaries. As a result, the registration system has defined limitations placed on the ability for WAFL Clubs to recruit Players. This registration system has been implemented to enhance the geographic zoned model adopted by the West Australian Football Commission (**WAFC**) for football in Western Australia.

The West Australian football system allows for Players to participate at multiple levels of competition. Conceptually, the Australian Football League (**AFL**) and Australian Football League Womens (**AFLW**) is the highest level, followed by the WAFL and Community Football (Senior Metropolitan and Country Leagues). Player movement is determined by transfer and permit guidelines as outlined by the AFL National Transfer Regulations and further defined in Rules 1.4 and 1.6, of these Rules.

The West Australian Football League implements a points system for registered Senior Players in the WAFL and WAFLW competitions and a Colts and Rogers Cup List for Zoned Players. Limitations placed on WAFL and WAFLW competitions through the use of the points system and a Colts and Rogers Cup List may have an impact on the ability of a Player to be registered to a WAFL Club. Guidelines for the registration of WAFL and WAFLW Senior Players with a WAFL Club are defined in Rule 2 -Registered Senior Player List, Colts Players are defined in Rule 12 relating to the Colts Competition and Rogers Cup Players are defined in Rule 13.

Should a player receive a player service reduction, from the service to the Primary club, and then seek a transfer to the Destination club, the player service reduction will not be transferred with the Player.

- b) Any appeals against the decision of the WAFC will be heard by the WAFL Arbitrator.

2.9 WAFL Competitive Balance

At the conclusion of the 2019 WAFL season, the WAFC reviewed the points system and after consultation with WAFL clubs and referencing the WAFC objectives for competitive balance (below), a new model was implemented for the 2020 season and adjusted for the 2023 season.

In 2024, a concession model will be implemented assessing the ladder position of the League team over the past 3 seasons, to derive a competitive balance outcome by using specific levers.

These levers are the player points system, protected players, increase in total player payments, and increase in interstate players to provide an opportunity for their club to be more competitive.

The WAFC can apply change to the competitive balance concessions, however it is only one part of the process for the WAFL Club(s) to be successful in affecting change at their club. The WAFL Club must have sound club structures and invest in a recruiting and retention strategy to maximise their opportunity to become more competitive on the field.

WAFL Competitive Balance Objectives

- Create an even playing field for all clubs, so the WAFL is a close, competitive and quality competition.
- To ensure the WAFL competition builds its foundations from local district players and ultimately having more WA home grown talent on each WAFL Club list
- Create a competition with more upsets and closer winning margins between the top and bottom end of the ladder.
- Ensuring WAFL supporters believe their club has a chance of winning every week regardless of the club's financial strength
- The closer and more competitive the competition is, the more attractive it becomes for the broadcaster, WAFL Fans, sponsors, members and the broader community.
- Enhancing the financial sustainability of WAFL clubs.

a) The WAFC shall apply the following guiding principles for competitive balance in the table in b) below:

- If a club finishes with a league ladder position of 9 or 10 (avg) over a three-year period, or
- If a club finishes with a league ladder position of 8 or 7 (avg) over a three-year period, or
- If a club finishes with a league ladder position of 6 (avg) over a three-year period, or
- If a club finishes with a league ladder position 5 -1 (avg) over a three-year period.

b) Competitive Balance Concession Table

League Ladder Position (3yr Avg)	10	9	8	7	6	5 - 1
Additional Player Points	20	20	10	10	5	0
Additional Protected Players	3	3	2	2	1	0
Additional TPP	\$ 20,000.00	\$ 20,000.00	\$ 10,000.00	\$ 10,000.00	\$ 5,000.00	0
Additional Interstate Players	2	2	1	1	0	0

c) For the avoidance of doubt:

- AFL Stand Alone and AFL Partner Clubs will be considered separately to this model, due to the unpredictability of the AFL contracted player movement.
- Any TPP Penalties applied, specifically loss of premiership points, which have affected the League ladder position of the Club that has been issued with a TPP penalty will be reinstated in the calculation for that Clubs three (3) year average ladder position.
 - For the avoidance of doubt, the Club who has received a TPP penalty will have all premiership points that were deducted from the ladder as a result of the TPP Breach, reinstated onto their total number of premiership points which may or may not alter the ladder position of that Club for the purpose of this Rule.
 - For the avoidance of doubt, All other Clubs will retain their position on the ladder at the conclusion of the home and away season, without consideration to the effect of reinstating of the premiership points penalties applied to other Clubs for the purpose of this Rule.
 - It is acknowledged that for the purpose of determining Competitive Balance concessions there will be two ladders:

1. A revised ladder for Clubs that have Breached the TPP and had a TPP penalty applied in that season.
 2. The Home & Away Ladder for all Clubs that have not had a TPP Penalty applied in that season.
- iii. The WAFC in their absolute discretion, may continue to grant concessions to assist with list management and TPP management for clubs that have already received concessions in the previous season(s).
- d) The WAFC may, in its absolute discretion without giving reasons:
- i. apply additional competitive balance measures to WAFL Clubs, including but not limited to TPP concession, Player points concessions, Protected player list concession and interstate player concessions.
- e) The following is a summary of the competitive balance measures that have been placed on WAFL clubs for the 2025 season:

At the conclusion of the 2024 WAFL season, the WAFC reviewed the points system and after consultation with WAFL clubs and referencing the WAFC objectives for competitive balance (below), a new model will be implemented for the 2025 season.

In 2025, a concession model will be implemented assessing the ladder position of the League team over the past 3 seasons, to derive a competitive balance outcome by using specific levers.

- f) The Appellant's Clubs is required to produce all evidence including video evidence upon which it proposes to rely at the appeal hearing.

6.15 Reportable Offences

6.15.1 Application

This section provides some guidelines as to the different categories of Reportable Offences and the appropriate sanctions and courses of action in respect of such offences.

These guidelines are designed primarily to be used by a Match Review Panel (or some other person or persons responsible for assessing a report or referral to determine the appropriate sanction or course of action prior to any Tribunal involvement) (Panel) at the discretion of that Panel.

Where there is no Panel, the Tribunal shall adopt these guidelines in assessing the particular alleged offence and appropriate sanctions for such an offence.

6.15.2 Classifiable Offences

6.15.2.1 Which Reportable Offences are Classifiable Offences?

- a) Classifiable Offences are those Reportable Offences (specified in the table below) which may be graded by a Panel in order to determine an appropriate base sanction for that offence.

Classifiable Offences

Charging

Unreasonable or Unnecessary Contact to the Eye Region

Forceful Front-On Contact

Headbutt or Contact Using Head

Kicking

Kneeing

Rough Conduct

Striking

Tripping

Unreasonable or Unnecessary Contact to the Face

6.15.2.2 Grading Classifiable Offences

- a) A Panel may grade Classifiable Offences in accordance with the tables contained in Rule 6.15.3 and Rule 6.15.5.3.
- b) A Panel may at its absolute discretion determine that the offence ought to be referred directly to the Tribunal on the basis that it is a Classifiable Offence which attracts a base sanction that the Panel finds inappropriate (see Direct Tribunal Offences as per Rule 6.15.4).

6.15.2.3 Conduct (Intentional, Careless)

- a) Intentional Conduct
- A Player intentionally commits a Classifiable Offence if the Player engages in the conduct constituting the Reportable Offence with the intention of committing that offence.
 - An intention is a state of mind. Intention may be formed on the spur of the moment. The

- issue is whether it existed at the time at which the Player engaged in the conduct.
- iii. Whether or not a Player intentionally commits a Reportable Offence depends upon the state of mind of the Player when the Player does the act with which they are charged. What the Player did is often the best evidence of the purpose they had in mind. In some cases, the evidence that the act provides may be so strong as to compel an inference of what their intent was, no matter what they may say about it afterwards. If the immediate consequence of an act is obvious and inevitable, the deliberate doing of the act carries with it evidence of an intention to produce the consequence. For example, a strike will be regarded as Intentional where a Player delivers a blow to an opponent with the intention of striking them.
 - iv. The state of a Player's mind is an objective fact and has to be proved in the same way as other objective facts. The whole of the relevant evidence has to be considered. If the matter is heard by the Tribunal, the Tribunal will weigh the evidence of the Player as to what their intentions were along with whatever inference as to their intentions can be drawn from their conduct or other relevant facts. The Player may or may not be believed by the Tribunal. Notwithstanding what the Player says, the Tribunal may be able to conclude from the whole of the evidence that the Player intentionally committed the act constituting the Reportable Offence.
- b) Careless Conduct:
- i. A Player's conduct will be regarded as 'Careless conduct' where it constitutes a breach of the duty of care owed by the Player to all other Players.
 - ii. Each Player owes a duty of care to all other Players, Umpires and other persons (as applicable) not to engage in conduct which will constitute a Reportable Offence being committed against that other Player, Umpire or other person.
 - iii. In order to constitute such a breach of that duty of care, the conduct must be such that a reasonable Player would not regard it as prudent in all the circumstances.
 - iv. A Player will be careless if they breach their duty to take reasonable care to avoid acts which can be reasonably foreseen to result in a Reportable Offence.

6.15.2.4 Impact (Low, Medium, High or Severe)

- a) Consideration will be given as to whether the impact is Low, Medium, High or Severe. In determining the level of impact, regard will be had to several factors:
 - i. Firstly, consideration will be given to the extent of force and in particular, any injury sustained by the Player who was offended against. The absence of injury does not preclude the classification of impact as Severe;
 - ii. Secondly, strong consideration will be given to the potential to cause injury, particularly in the following cases:
 - a. intentional strikes, such as those with a swinging clenched fist, raised forearm or elbow;
 - b. high bumps, particularly with significant head contact and/or Player momentum;
 - c. any head-high contact with a Player who has their head over the ball, particularly when contact is made from an opponent approaching a front-on position;
 - d. forceful round arm swings that make head-high contact to a Player in a marking contest, ruck contest or when tackling;
 - e. any contact that occurs when the victim Player should not reasonably be expecting or is not reasonably prepared for contact (i.e. contact off the ball);
 - f. any Dangerous Tackle; and
 - iii. Thirdly, consideration will be given not only to the impact between the offending Player and the victim Player, but also any other impact to the victim Player as a result of such impact.
- b) Strong consideration will be given to the distance the incident occurs from the ball and the expectation of contact of the other Person.

- c) Consideration will be given to the body language of the offending Person in terms of flexing, turning, raising or positioning the body to either increase or reduce the force of impact.
- d) Consideration will be given not only to the impact between the Person and the other Person, but also any other impact to the other Person as a result of the impact.
 - i. For example, where the other Person as a result of the impact from an offending Person is pushed into the path of a fast moving third person, the impact to the other Person may be classified as High or Severe impact, even though the level of impact between the other Person and the offending Person was only Low or Medium Impact.
- e) Low impact (is the minimum impact required for a Classifiable Offence) and this requires more than just a negligible impact. The panel may however consider the potential to cause injury to upgrade the level of impact from negligible to a higher level of impact.

6.15.2.5 Victim Impact

- a) In addition to the above, the following table provides a summary of applicable base level impact guidelines for Low, Medium, High & Severe Impact incidents:

Low	<p>Player - Minimal or no impact on the match - the Player continued to play the majority of the match and suffered no or minimal ongoing issues.</p> <p>Person (other than Player) Person continued their relevant capacity in relation to the Match for the majority of the Match and suffered no or minimal ongoing issues.</p> <p>The impact can be raised under the potential to cause serious injury at the absolute discretion of the Match Review Panel or WAFL Tribunal.</p>
Medium	<p>Person (including player) - Clearly some impact on the Player, and/or the Player left the field for a lengthy period of time, and/or some possible lower level ongoing treatment(s) required.</p> <p>The impact can be raised under the potential to cause serious injury at the absolute discretion of the Match Review Panel or WAFL Tribunal</p>
High	<p>Person (including player) - Major impact on the Player, and/or the Player was unable to participate in the remainder of the game, and/or major ongoing issues that require medical intervention and /or may miss some matches.</p> <p>The impact can be raised under the potential to cause serious injury at the absolute discretion of the Match Review Panel or WAFL Tribunal</p>
Severe	<p>Person (including Player) - Major impact and serious injury to the Person, and / or likely to miss a significant number of Matches</p>

Note – These are base level impact guidelines. The impact can be raised under the potential to cause serious injury at the absolute discretion of the Match Review Panel or WAFL Tribunal.

6.15.2.6 Contact (High/Groin, Body)

- a) High contact is not limited to contact to the head and includes contact above the shoulders.
- b) A classification of High contact may apply for a Careless or Intentional Dangerous Tackle (refer section 6.15.8.5(3) which has the potential for injury to be caused through dangerous high contact with the ground but where high contact does not actually occur.
- c) Contact to the Groin includes contact to the crease or hollow at the junction of the inner part of each thigh with the trunk together with the adjacent region and including the testicles.
- d) Where contact is both High and to the Body, the Panel will usually classify the contact as High.
- e) Contact shall be classified as High or to the Groin where a Player's head or groin makes contact with another Player or object such as the fence or the ground as a result of the actions of the offending

Player. By way of example, should a Player tackle another Player around the waist and as a result of the tackle, the tackled Player's head made forceful contact with the fence or the ground the contact in these circumstances would be classified as High, even though the tackle was to the body.

6.15.2.7 Impact of a Bad Record on Classifiable Offences

- a) The sanction for Classifiable Offences may be increased where a Player has a bad record.
- b) Where a Player has been found or pleaded guilty to two low-level Classifiable Offences within a 12 month period (those Classifiable Offences with a base sanction of 1 match as per the classification table in section 6.15.3)
 - i. any third or subsequent low-level Classifiable Offence within the same 12-month period (as at the date of the offence) will result in a base sanction of 2 matches, with the Player able to accept 1 match with an early guilty plea
 - ii. For the avoidance of doubt, the third and subsequent low-level classifiable offence penalty will be applied in accordance with the grade that the offence occurred. I.e if the offence occurred in a league match, a fine will be issued to the player. If the offence occurred in a lower grade, the 1 match sanction will be issued.
- c) For the avoidance of doubt:
 - i. the Low-level Offences referred to in Rule 6.15.5 will not be affected by the above bad record provisions.

In this instance the Tribunal will not be bound by the classification table in section 6.15.3 and will be at large in relation to penalty. Evidence in relation to the record of a Player can be tendered to the Tribunal without the leave of the Chair.

6.15.2.8 Reductions in base sanction for an early guilty plea

- a) The base sanction for Classifiable Offences will be subsequently decreased where a Player submits an early guilty plea. As per the Classification Table in Rule 6.15.3:
 - i. An early guilty plea in respect of a Classifiable Offence with a fixed base sanction of two, three or four matches will result in a one-match reduction in the suspension; and
 - ii. An early guilty plea in respect of a Classifiable Offence with a base sanction of one match will result in a reprimand and/or fine.

6.15.2.9 No Automatic reduction for Good Record

- a) Players do not receive an automatic reduced base sanction for a good record. However, if a Classifiable Offence is contested or referred to the Tribunal, a Player with an exemplary record at senior level football could argue it constitutes exceptional and compelling circumstances, (which would make it inappropriate to apply the sanctions in section 6.15.3 to the determined classification). In such circumstances, the Tribunal would determine the appropriate sanction in its absolute discretion.

6.15.2.10 Multiple Offences in a Single Match

- a) Where a Player is found guilty of multiple Reportable Offences from a single match, the individual penalties are added together to form the final penalty to the Player.

A Club must provide a Medical Report upon request by the Controlling Body or Tribunal.

- a) The Panel or Tribunal (as applicable) has the right to apply (in its absolute discretion) a loading of up to 100% for any Reportable Offence committed during a Grand Final. Reportable Offences.

6.15.8 Reportable Offences

The Laws of Australian Football sets out a non-exhaustive list of specific Reportable Offences in Law 22.2.2 as well as providing for various categories of permitted contact which shall not constitute a Reportable Offence (for example legally using a hip, shoulder, chest, arms or open arms, providing the football is no more than five metres away, and contact which is incidental to a marking contest where a Player is legitimately marking or attempting to mark the football).

The Laws define certain offences such as Charging and Engaging in a Melee, however, they provide that in interpreting Reportable Offences, words, terms or phrases which are not defined in the Laws shall be given their ordinary meaning.

The following provides some further guidance in relation to what constitutes particular Reportable Offences.

6.15.8.1 Striking, Kicking

- a) Striking and kicking are interpreted in accordance with their commonly understood meaning. A strike would usually be by hand, arm or elbow and would generally not apply to other contact using the body. A strike can also occur with an open hand. A kick is generally applied to contact by foot or leg.
- b) Under the Classifiable Offences, a strike or kick requires more than negligible impact.
- c) Where a strike, for example, does not have more than negligible impact, it is still open to a Panel to

charge a Player with Striking under the Low-Level Offences table where it is satisfied that notwithstanding the result, the intention was to commit a Reportable Offence.

- d) Where no contact is made, a Panel can charge a Player with an Attempt to Strike or Kick, which are also Low-Level Offences.

6.15.8.2 Classification of Certain Strikes

- a) For the purpose of these Rules, all Persons should note that the following factors are considered when determining the classification of a Striking offence:
- i. **Intent:** Notwithstanding any other part of these Guidelines, the fact that an act of striking occurred behind the play or off the ball or during a break in play or with a raised forearm or elbow is usually consistent with the strike being intentional.
 - ii. **Impact:** Notwithstanding any other part of these guidelines, any Careless or Intentional strike which is of an inherently dangerous kind and/or where there is a potential to cause serious injury (such as a strike with a raised elbow or forearm) will usually not be classified as “Low Impact” even though the extent of the actual physical impact may be low. Such strikes will usually be classified at a higher level commensurate with the nature and extent of the risk of serious injury involved. Strong consideration will also be given to the distance the incident occurs from the ball and the expectation of contact of the victim Player.

6.15.8.3 Misconduct

Misconduct has a wide meaning and generally is any conduct which would be reasonably regarded as unacceptable or unsportsmanlike or where it has the effect or potential to prejudice the reputation of any person, Club or the WAFC or to bring the game of football into disrepute.

- a) Acts of Serious Misconduct will be referred directly to the Tribunal and the Tribunal may determine the appropriate sanction in its absolute discretion.
- b) Any other act of Misconduct will be subject to a Low-Level Offence to be determined by the Panel in its absolute discretion.

6.15.8.4 Forceful Front-On Contact

- a) Bumping or making forceful contact to an opponent from front-on when that opponent has their head over the ball is a Reportable Offence. Unless Intentional, such actions will be deemed to be Careless, except where:
- i. the Player was contesting the ball and it was reasonable for the Player to contest the ball in that way; or
 - ii. the bump or forceful contact was caused by circumstances outside the control of the Player which could not reasonably be foreseen.
- b) Any Careless or Intentional Forceful Front-On contact where High Contact has been made and that has the potential to cause injury will usually be graded at a minimum as Medium Impact, even though the extent of the physical impact may be low.
- c) A Player can bump an opponent's body from side-on but any contact forward of side-on will be deemed to be front-on.
- d) A Player with their head down in anticipation of winning possession of the ball or after contesting the ball will be deemed to have their head over the ball for the purposes of this section.

6.15.8.5 Rough Conduct

- a) Rough Conduct is interpreted widely in relation to any contact which is unreasonable in the circumstances.
- b) It is a Reportable Offence to intentionally or carelessly engage in Rough Conduct against an opponent which in the circumstances is unreasonable.
- c) Without limiting the wide interpretation of Rough Conduct, particular regard shall be had to the following officially recognised forms of Rough Conduct.

Form of Rough Conduct	Description
1. Rough Conduct (High Bumps)	<p>A Player will be guilty of Rough Conduct where in the bumping of an opponent (whether reasonably or unreasonably) the Player causes forceful contact to be made with any part of their body to an opponent's head or neck.</p> <p>Unless Intentional, such conduct will be deemed to be Careless, except where:</p> <ul style="list-style-type: none">• the Player was contesting the ball and it was reasonable for the Player to contest the ball in that way; or• the forceful contact to the opponent's head or neck was caused by circumstances outside the control of the Player which could not be reasonably foreseen. <p>In which case such conduct will not constitute a Reportable Offence.</p> <p>Any high bump which constitutes Rough Conduct that has the potential to cause injury will usually be graded at a minimum as Medium Impact, even though the extent of the physical impact may be low.</p> <p>The purpose of the rule dealing with high bumps is to, as far as practicable, minimize the risk of head injuries to Players and this purpose needs to be front of mind for all Players and will guide the application of the rule.</p> <p>For the purpose of these Guidelines, head clashes that occur when a Player has elected to bump are circumstances that can reasonably be foreseen. Players will ordinarily be liable if they elect to bump if not contesting the ball.</p>
2. Rough Conduct (Bumps to the Body)	<p>If the rule relating to high bumps does not apply (for example in the case of a bump to the body), a Player may still be guilty of Rough Conduct if their conduct was unreasonable in the circumstances. In determining whether any bump was unreasonable in the circumstances, without limitation, regard may be had to whether:</p> <ul style="list-style-type: none">• the degree of force applied by the person bumping was excessive for the circumstances;• whether the Player being bumped was in a vulnerable position; and• whether the Player could reasonably expect the contact having regard to their involvement in play or ability to influence the contest.

3. Rough Conduct (Dangerous Tackles)

The application of a tackle may be considered Rough Conduct which is unreasonable in the circumstances. In determining whether the application of a tackle constitutes a Reportable Offence and whether the offence is Careless or Intentional, the following factors will be considered (without limitation):

- whether the tackle consists of more than one action, regardless of whether the Player being tackled is in possession of the ball;
- whether the tackle is of an inherently dangerous kind, such as a spear tackle or a tackle where a Player is lifted off the ground;
- whether the Player being tackled is in a vulnerable position (for example, arm(s) pinned) with little opportunity to protect himself; and

whether the player being tackled is being slung, driven or rotated into the ground with excessive force.

4. Rough Conduct (Contact Below the Knees)

Under the Laws of Australian Football, it is prohibited to make contact with an opponent below the knees. Players who keep their feet are vulnerable to serious injury from opponents who lunge, dive or slide toward them and make contact below the knees.

It is the purpose of these guidelines to protect such Players from the risk of foreseeable injury. A Player may be guilty of Rough Conduct if the Player makes contact below the knees of an opponent and does so in a manner which is unreasonable in the circumstances.

It is not a defence that the Player who made the prohibited contact was contesting the ball or was first to the ball. The primary responsibility of Players with respect to contact below the knees is to avoid the risk of foreseeable injury. In determining whether any contact below the knees is unreasonable in the circumstances, the following factors will be considered:

- the degree of momentum and/or force involved in the contact;
- whether the Player causes contact below the knees by sliding with their foot, feet, knee or knees in front of them;
- whether the opposition Player was in a position that was vulnerable to contact below the knees (for example, standing over the ball or approaching from the opposite direction); and
- whether the Player making contact had any realistic alternative ways of approaching the contest or situation.

Where the contact is not made below the knees of the opposition Player but to another part of an opponent's body, a Player may still be guilty under the general definition of Rough Conduct for making unreasonable contact by sliding or dropping in to an opponent with their knees or feet first.

6.15.8.6 Contact with and Umpire

6.15.8.7 Contact with and Umpire

- a) Intentional Contact with an Umpire:
 - i. Contact with an Umpire that is aggressive, forceful, demonstrative or disrespectful will be deemed intentional and the Person will be directly referred to the Tribunal;
 - a. In determining the sanction for Intentional Contact with an Umpire, the Tribunal must have regard to the number of elements of the offence (Aggressive, forceful, demonstrative and/ or disrespectful) which are established.
 - ii. A Player may also be charged with the offence of Intentional Contact with an Umpire by pushing or holding an opponent into an Umpire or their direct path.
 - iii. Where contact with an umpire is forceful but only incidental (i.e. it is not otherwise aggressive, demonstrative or disrespectful) the WAFC has the discretion not to charge the Player with Intentional Contact with an Umpire (resulting in a direct referral to the Tribunal) and instead charge the Player with Careless Contact with an Umpire (but provided such Contact is not otherwise disrespectful, demonstrative or aggressive).
- b) Unreasonable or Unnecessary Contact with an Umpire:
 - i. Where contact with an Umpire is not aggressive, forceful, demonstrative or disrespectful but could otherwise be regarded as intentional, it will be classified as Unreasonable or Unnecessary Contact with an Umpire which is a Low-Level Offence.
- c) Careless Contact with an Umpire:

Contact with an Umpire by a Player will be regarded as careless when it constitutes a breach of the duty of care owed by the Player to the Umpire. Regard will be had to the following factors when determining if the contact is careless:

 - i. Whether contact occurs at a centre bounce or ball up;
 - ii. Whether the Player has set up behind the Umpire;
 - iii. Whether the Player has taken a path that intersects the Umpire's exit line from a stoppage;
 - iv. The force of the contact;
 - v. Whether the Umpire's decision making is impeded;
 - vi. Whether the Umpire goes to ground as a result of the contact;
 - vii. Any mitigating factors (effort to avoid contact, offline bounce or throw, pushed by opponent into Umpire's path etc).
- d) A player may also be charged with the offence of Careless Contact with an Umpire by directly pushing an opponent into an Umpire of their direct path.

6.15.8.8 Umpire Abuse

- a) Using Abusive, Insulting or Obscene Language Towards or in relation to an Umpire will be a Low-level Offence unless the WAFC determine that:
 - i. the Low-level Offence sanction is inappropriate; and
 - ii. the conduct does not constitute the Direct Tribunal Offence of Behaving in an Abusive, insulting, Threatening or Obscene Manner Towards or in Relation to an Umpire,in which case the WAFC may impose a sanction either a two (2) Match, three (3) Match or four (4) Match suspension, with the relevant Person entitled to receive a reduction in the sanction equivalent to the reduction applicable in Rule 6.1.3 with an Early Guilty Plea. (ie a two (2) match suspension reduced to a one (1) Match suspension with an Early Guilty Plea).

6.15.8.10 Using Abusive, Insulting or Obscene Language

- a) Using Abusive, Insulting or Obscene Language will be a Low-level Offence unless the WAFC determine that:

 - ii. the conduct does not constitute the Direct Tribunal Offence of Behaving in an Abusive, insulting, Threatening or Obscene Manner Towards or in Relation to an Umpire,
- in which case the WAFC may impose a sanction either a two (2) Match, three (3) Match or four (4) Match suspension, with the relevant Person entitled to receive a reduction in the sanction equivalent to the reduction applicable in Rule 6.1.3 with an Early Guilty Plea. (ie a two (2) match suspension reduced to a one (1) Match suspension with an Early Guilty Plea).

6.15.8.11 Melee/ Wrestle

- a) Engaging in a Melee/ Wrestle:
- A Melee is defined as an incident involving Persons who are grappling or otherwise struggling with one another and which is likely to bring the game of Australian Football into disrepute or prejudice the interests or reputation of the WAFC. In determining if a Person's conduct constitutes Engaging in a Melee/ Wrestle, the following factors will be considered:
- i. The duration the Person is involved in the Melee/ Wrestle;
 - ii. The vigour applied by the Person;
 - iii. Whether the Melee/Wrestle occurs at a break in play, particularly at quarter breaks and half time; and
 - iv. Whether the Player contributed to an escalation of the Melee/ Wrestle.
 - v. The role of the Person (for example, Player or Football Official)
- b) Instigator of a Melee/ Wrestle
- i. Where a Person's conduct results in a retaliatory action which leads to a Melee/ Wrestle, that Person's conduct may constitute a Reportable Offence of Instigator of a Melee/ Wrestle. The Reportable Offence of Instigator in a Melee/ Wrestle is separate to the Reportable Offence of Engaging in a Melee/ Wrestle and a Person may be found guilty of both reportable Offences.

6.15.8.12 Staging

- a) Staging includes excessive exaggeration of contact in an unsportsmanlike manner. In determining whether a Person's conduct constitutes a Reportable Offence of Staging, the following factors will be considered

 - iii. whether contact was made with a swinging motion.
- b) To constitute a Classifiable Offence, Tripping requires more than negligible impact.
- c) Where a trip does not have more than negligible impact, it is still open to the Match Review Panel or Tribunal to charge a Player with Tripping under the Low-Level Offences table where it is satisfied that notwithstanding the result, the intention was to commit an act constituting a Reportable Offence.

In order to enhance the development of youth Players within the WAFL Colts and Futures competition it is imperative that the individual philosophies of the coaches are development focused. The following are therefore proposed in order to achieve the objective of enhanced Player and competition development and are aligned to the AFL National Talent Philosophy.

- To provide an environment that best develops and showcases each individual's talents regardless of shape or size
- To reduce the density of player numbers around the football in order to provide an opportunity for the less physically developed players to showcase their skill set.
- Eliminate any form of "Full Ground Press" which doesn't allow forwards & defenders (Tall, Medium or Small) to develop their craft of leading to or defending the ball coming Inside 50.
- To promote and teach the art of one on one football to all underage players
- To continue to promote and harbor learning environments which encourage players to develop and showcase their repeatable skills (kicking, hand passing, decision making, marking, speed, lateral movement, etc.) without relying on their physical size

13 ROGERS CUP COMPETITION

The Rogers Cup is an age restricted competition. The aim of the Rogers Cup competition is to develop young footballers to the maximum of their ability.

To achieve their potential, Players are to be coached in such a way that develops:

- The skills, physical attributes and football knowledge, and the
- Personal characteristics and self-esteem of each Player.

The WAFLW believes that the above development can be maximized in an environment that:

- Emphasises individual Player development rather than team success
- Emphasises individual contribution as an essential component in a team environment
- Considers the Players' long term participation in football at a variety of levels
- Promotes a balanced approach to the Players' lifestyles.

The Rogers Cup competition aims to prepare Players for progression to senior WAFLW or AFLW football. Players are therefore to be coached in a manner that physically and mentally prepares all Players to successfully make this transition.

The Rogers Cup via the conduct and coaching of the competition prepares and encourages Players not progressing to WAFLW senior football to continue playing football at a level commensurate to the Player's ability, i.e. Amateurs, Country Football, Metro Football League etc.

The following are therefore proposed in order to achieve the objective of enhanced Player and competition development and are aligned to the AFL National Talent Philosophy.

- To provide an environment that best develops and showcases each individual's talents regardless of shape or size
- To reduce the density of player numbers around the football in order to provide an opportunity for the less physically developed players to showcase their skill set.
- Eliminate any form of "Full Ground Press" which doesn't allow forwards & defenders (Tall, Medium or Small) to develop their craft of leading to or defending the ball coming Inside 50.
- To promote and teach the art of one on one football to all underage players

Schedule 1 Heat Policy

Heat-related stress can lead to impaired player performance (eg dizziness, headaches, collapse and illness). In its extreme form, heat can be life threatening. Preventing heat stress and injury maintains optimum performance and improves recovery. To prevent heat stress, careful planning and preparation is required in accordance with this Schedule 1.

A number of management strategies to minimise any potential heat injury have been identified over recent seasons. The recommended prevention methods that follow are a result of experience gained from the AFL Preseason, WAFL Preseason and early season Premiership rounds.

Overarching message of Strip/ Soak/ Fan any person suspected of any heat stress and where possible Immerse/ Cover and Call an ambulance if no improvement after 2 mins.

Preliminary Assessment

The WAFC will assess the heat stress risk by reviewing information provided by the Bureau of Meteorology. Heat stress management strategies should also be applied at all training sessions. The WAFC, at its absolute discretion, can implement parts or the policy in full.

The WAFC will monitor weather conditions in the lead up to each match. Where the bureau of Meteorology forecast is for excessive heat (wet bulb global temperature reading 28 or higher) or with an ambient temperature between 33-37 degrees (with consideration to the humidity that exceeds 50%) the WAFC will implement the Heat Policy. The WAFC may postpone or cancel matches if the ambient temperature is 38 degrees or higher (with consideration to the humidity exceeding 30% or higher), the heat policy may be enacted.

The WAFC will contact the clubs concerned in the lead up to the match to ensure there is adequate preparation for match day.

The WAFC will make this decision prior to 5pm on the Thursday before the match utilizing the BOM 3-day forecast. A decision to postpone or cancel matches may be made up until the day before the scheduled match. Should the Heat Policy be enacted, and the temperature forecast be adjusted below the Heat Policies range (as above) the extra player will remain in place however, other match conditions may be retracted. A decision will be made at the absolute discretion of the WAFC.

Should a match be postponed, the competition will reschedule the matches during the bye weekends. Should a match not be able to be postponed or played at a later date, it will be declared a draw. Should a club abstain from playing in a sanctioned match it will be deemed a forfeit.

It will be the Home Team's responsibility for the following should The Heat Policy be implemented:

- Supply a minimum of 1 x bags of ice per team at all times. Should clubs require more, please liaise with the home club or make other arrangements.
- Provide at a 2 x minimum pedestal fans for each team
- Ensure complete shade in for the bench.

Players / Umpires

Players have a responsibility to ensure that the impact of environmental factors such as extreme heat is not exacerbated by their own conduct. Accordingly, the following general guidelines should be followed:

- Ensure adequate fluid intake prior to game and during game (500-700mls per quarter);

- monitor hydration;
- notify medical and coaching staffs when effected by heat or when performance is noticeably effected;
- Use water and electrolyte drinks;
- use pre-game, game and post-game cooling strategies;
- do not play in the heat with an illness; and
- Apply 50+ sunscreen in sunny conditions.

Clubs Responsibility

All Clubs competing in a competition administered by the Football Body should monitor environmental factors such as extreme heat both in Matches and at any Australian Football training session administered by the Club. The Club should assess the heat stress risk by reviewing information provided by the Bureau of Meteorology. Heat stress management strategies should also be applied at all training sessions administered by the Club.

The following general guidelines should be followed:

- Use cooling aids – ice vests, spray bottles, sponges, fans (in rooms and on interchange bench) and shade;
- Choose heat permeable jumpers and socks;
- Mandatory reporting of incidents of heat stress illness in all players to the Football Body;
- Use a Club official to be delegated the primary responsibility of monitoring and manage players for heat stress issues as they arise during a Match;
- Provide adequate fluids in appropriate bottles;
- Ensure trainers are fit enough to access as many Players as possible during the game;
- provide facilities for player cooling – shade, air conditioning, sprays and fans whether training or playing;
- coordinate training times outside extreme conditions;
- Include additional Player(s) to squad (Approval by the WAFC); and
- Nomination of one Player payment to sit outside the TPP in home and away matches;

Coaches

- Rotate Players regularly, especially running Players, through interchange bench

Medical

- identify “at risk” players and monitor their core temperatures, physical and mental performance and hydration state;
- Do not play Players suffering from a febrile illness, vomiting or diarrhea;
- Weigh Players before the game, half time and at the end of the game to identify fluid replacement requirements;
- avoid adrenaline-like medication;
- provide thermometers (including rectal), equipment for resuscitation and intravenous fluid replacement;
- if playing in potentially difficult circumstances delegate management of heat stress and illness to one (1) responsible medical officer;
- have adequate medical equipment available for managing heat stress conditions;
- report all cases of heat stress and heat stress illness in training sessions and games to the WAFC;
- provide player education on the issue and how the club will manage such circumstances.

Overarching message of Strip/ Soak/ Fan any person suspected of any heat stress and where possible Immerse/ Cover and Call an ambulance if no improvement after 2 mins.

WAFC

Where possible, the **WAFC should schedule Matches as much to avoid extremes of heat and allow for**

increased recovery from those conditions.

- Schedule games to avoid hot conditions where possible (e.g. Pre-season games – night or twilight or early morning) particularly night games in March/April.
- Ensure venues provide change rooms with cooling facilities e.g. Fans, air conditioning.
- Increase the number of water runners to run fluids in high risk conditions (extra three)
- Increase the length of intervals to enable teams to leave the field for the shade of the rooms at each change in high risk conditions i.e. 25 minutes for ½ time and/or 10 minutes for ¼ and ¾ time.
- Provide extra field and boundary Umpires for February and March games (Pre-season competition) in high to extreme risk conditions.
- WAFL Clubs to include an additional Player and Clubs can select one Player's match payment to sit outside the TPP. This selection must be highlighted on the WAFL form 2b
- Reduce length of quarters e.g. 25 minutes maximum in February and March in extreme risk conditions.
- Consider postponing or rescheduling games in extreme risk conditions.

Schedule 5 Working with Children Policy

The Working with Children Policy sets out the screening process for people in the WAFL who work, coach, supervise or have regular unsupervised contact with people under the age of 18 years. In accordance with the Working with Children (Criminal Record Checking) Act 2004, WAFL Clubs must ensure that any person in child-related work have an Assessment Notice in the form of a WWC Card following completion of a Working with Children Check.

Purpose of Working with Children Check

The Working with Children Check (WWC Check) is a compulsory and rigorous criminal record check for certain people who carry out 'child-related work' in WA. A person is in 'child-related work' if the usual duties of their work involves, or is likely to involve contact with a child in connection with specified categories of work (see the website below for further details) It includes child-related work carried out by paid employees, volunteers, unpaid people and the self-employed.

Parents volunteering in connection with their child's activity are exempt (although this does not apply to overnight camps); however they should still be required to complete the non-WWC Check screening process. There are other exemptions, for example volunteers under 18 years old. Further details about exemptions can be found on the website www.checkwwc.wa.gov.au. Only those in child-related work under the Act may apply.

Applicants will be issued with either:

- An Assessment Notice in the form of a WWC Card enabling them to be in all types of child-related work for three years unless there are new offences of concern.
- An Interim Negative Notice, which prohibits them from child-related work until a final decision is made on their application.
- A Negative Notice, which prohibits them from child-related work.

There are set obligations and strong penalties for non-compliance including for WAFL Clubs, whether they be an employer or volunteer co-coordinator of those people who are working with children.

WAFC and WAFL Club obligations

Every WAFL Club and the WAFC is required to:

- a) Identify positions that involve working, coaching, supervising or regular unsupervised contact with people under the age of 18 years.
- b) Obtain a completed Member Protection Declaration (MPD) (available via WAFL Online) from all people who are identified in the above step and keep it in a secure place.
- c) Provide an opportunity for a person to give an explanation if a MPD isn't provided or it reveals that the person doesn't satisfactorily meet any of the clauses in the MPD. The WAFC will then make an assessment as to whether the person may be unsuitable to work with people under the age of 18 years. If unsatisfied the WAFC will not permit the appointment of that person to the role/position.
- d) Where possible, check a person's referees (verbal or written) about his/her suitability for the role.

- e) Ask the people identified in step 1 to sign a consent form for a national police check.
- f) Possibly request (or ask the person to request) a national 'Part Exclusion' police check from Western Australia police. This check excludes irrelevant records. If the police check indicates a relevant offence, the WAFC will provide an opportunity for the person to give an explanation, and then the WAFC will make an assessment as to whether the person may pose a risk to or be unsuitable to work with people under the age of 18 years. If unsatisfied the WAFC will not permit the appointment of that person to the role/position.
- g) Make an assessment as to whether the person may be unsuitable to work with people under the age of 18 years if the person does not agree to a national police check after explaining why it is a requirement under our policy. If unsatisfied, the WAFC will not permit the appointment of that person to the role/position.
- h) Decide whether to offer the person the position taking into account the result of the police check and any other information the Club has available to it. Where it is not practical to complete the police check prior to the person commencing in the position, WAFL Clubs must arrange for the check to be completed as soon as possible, and if necessary, act immediately on the outcome.
- i) Protect the privacy of any person who is checked and maintain confidentiality of any information obtained through the checking process.
- j) Return information collected during screening (such as a completed MPD form, police records and referee reports) to the relevant person if that person is not appointed to the position, or otherwise be destroyed within twenty eight (28) days of the date of the decision or the expiry of any appeal period, unless within that time the person requests that the documents be returned to them. For appointed persons, information will be kept on file in a secure location.

Schedule 6 Bleeding & Blood Borne Infection Policy

- a) The WAFL follows the AFL policy in this area.
- b) Any Club not adhering to the policy set out in the Laws of Australian Football may be fined in accordance with Rule 14.

Schedule 7 WAFL Venues Policy

The WAFL Venues Policy is developed in conjunction with the AFL Preferred Facility Guidelines, whereby state league competitions are defined. These AFL Preferred Facility Guidelines should be used to inform the provision and development of venues, facilities and amenities. The Guidelines outline the preferred facility requirements for competition, training and programing activities that may take place at the venue, specifically minimum standards to facilitate State League Football.

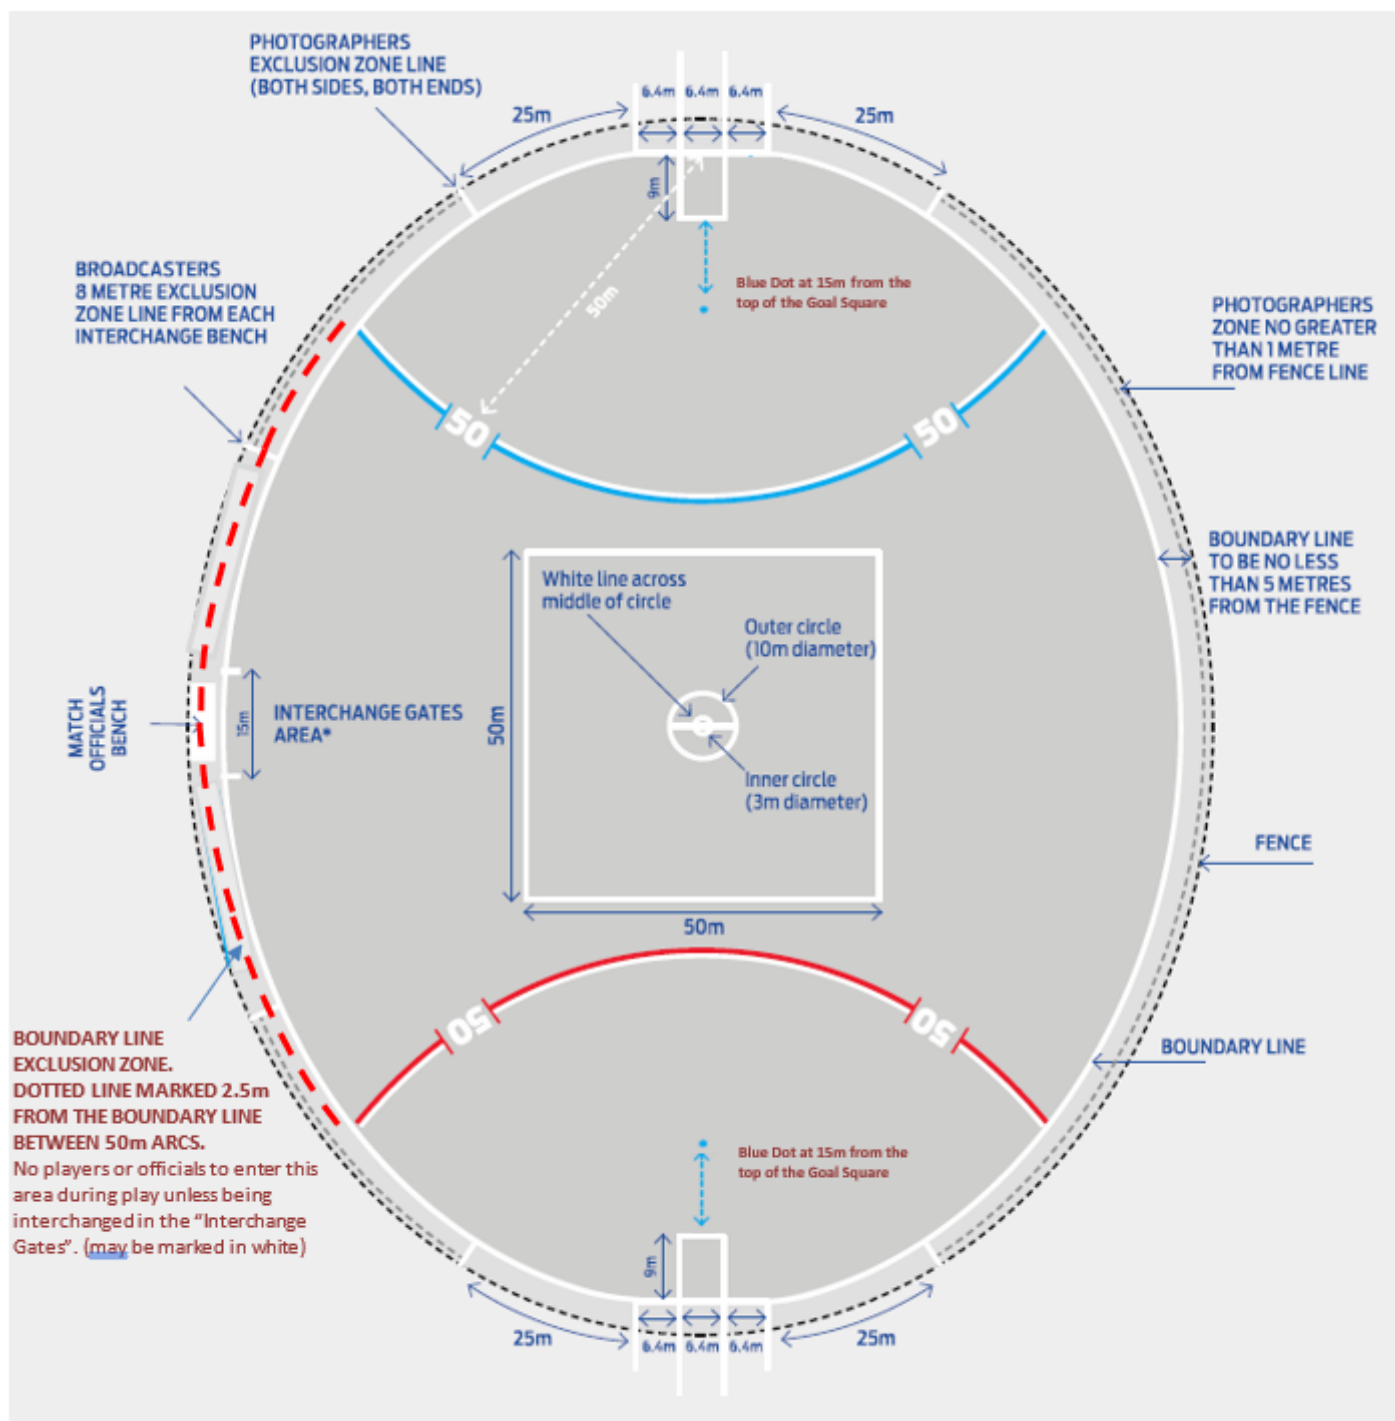

The information presented within the guidelines refers to the **typical minimum levels** of provision recommended for each venue type and its defined use for Australian Football as defined below:

- They primarily service State League and elite underage competitions and are viewed as second tier competition venues
- Used for high performance training and community competition finals, they are maintained to a showcase level, offering higher standards of amenities with perimeter and reserve fencing and the capacity to cater for larger crowds.
- There is a growing need for State Level facilities to provide year-round football activity for talent and pathway training and programing.

The WAFC, specifically WAFL Operations, is required to be involved in all aspects of the planning and execution of a new facility. Should any deviation occur from the current guidelines, the WAFC has the final decision on what is considered the minimum standard at that given time and can operate outside of the minimum standards guidelines, acting in the best interests for football.

Schedule 8 Lighting for Night Football Policy

Minimum Standards

- a) The following lighting standard is the recommended minimum for the conduct of games for the WAFL competition under lights:

Minimum uniformity (U_1)	0.7
Minimum uniformity (U_2)	0.5
Insurance	All Clubs are advised to notify their insurer that night football is to be played at their venue

- b) In the event a ground has existing lighting the following minimum standard may apply, however the Club is expected to make every endeavour to achieve the standard as detailed above. Between the months of April to October, or otherwise determined by the WAFC, the WAFC may not sanction a night game below the standard detailed below:

Maintained illuminance	200 lux (horizontal)
Minimum uniformity (U_1)	0.6
Minimum uniformity (U_2)	0.4

Maintained Illuminance

- a) The maintained illumination within the playing arena, on a horizontal plane at ground level, allows for depreciation of the lumen output of the lamp and an accumulation of dirt on the floodlights.
- b) It is necessary to make an adjustment to the installed level to determine the maintained illuminance.

- d) Technical data from the selected lamps will allow specific calculations to be made.

Uniformity

- a) The distribution of light across the playing surface should be reasonably uniform. The calculation of uniformity is normally undertaken as part of a computer program, but may be defined as:

Where	E_{\min} is the minimum value of the calculation or measurement grid E_{ave} is the average illuminance of the calculation or measurement grid

Measurements

- a) All measurements should be undertaken by an approved contractor who must present a recent calibration certificate for the meters used in obtaining the measurements. Measurements must be undertaken as per AS 2560.

Australian Standard 2560.2.-2021

Schedule 10 Concussion Policy

The WAFL Competition will be guided by the AFL Concussion Management Policy “The Management of Sport-Related Concussion in Australian Football”

<https://play.afl/learning-resource/afl-community-concussion-guidelines#article-0>

These guidelines are intended to assist in the management of concussion and do not replace the need to seek medical assessment.

Below is an excerpt from The Management of Sport-Related Concussion in Australian Football which the WAFL have adopted:

Purpose:

1. To ensure that healthcare practitioners (including, but not limited to, general practitioners and physiotherapists), AFL First Aiders and sports trainers, coaches, teachers, players and parents understand how to recognise and manage concussion in Australian Football
2. To protect the short and long-term health and safety of all Australian Football players across all levels of competition from the risks presented by concussion and repeated head trauma.

Head impacts can be associated with serious and potentially fatal brain injuries.

In the early stages of injury, it is often not clear whether you are dealing with a concussion or there is a more severe underlying structural head injury. For this reason, the most important steps in initial management include:

Day of Injury Management:

1. **Recognising** that a player may have suffered a concussion or injury to their brain;
 2. **Removing** the player from the match or training; and
 3. **Referring** the player to a medical doctor for assessment
 4. Where there is no medical doctor present to assess the player, or the diagnosis of concussion cannot be ruled out at the time of injury, the player must NOT be allowed to return to play in the same match / training session.
- Any player who has suffered a concussion or is suspected of having a concussion must be medically assessed as soon as possible after the injury and must NOT be allowed to return to play in the same match or training session.
 - At a minimum, there should be an appropriately accredited AFL First Aider or sports trainer at every match and the basic rules of first aid should be used when dealing with any player who is unconscious or injured.

Return to play protocols:

The most important aspect of return to play protocols is guiding the player through key stages rather than simply following suggested timeframes or the number of days post injury:

The critical stages for return to play following concussion include:

1. A **brief** period of **relative rest** (24-48 hours)
2. A period of **recovery**
3. A **graded loading program** (with medical clearance required before full contact training),
4. Clearance by a medical doctor (prior to returning to competitive contact sport / full contact training sessions).

- Players should not enter stage 3, the graded loading program, until they have recovered from their concussion. Recovery means that all concussion-related symptoms and signs have fully resolved (for at least 24 hours) at rest and with intense physical exertion, and they have successfully returned to work and/or study, without restrictions.
- Any concussed player must not return to competitive contact sport (including full contact training sessions) before they have completed all stages of the return to play process and obtained medical clearance.
- How concussion presents and the rate and pattern of recovery vary from person to person and injury to injury. Players will also have different individual circumstances (e.g. the number of previous concussions) and priorities (e.g. return to school in young people). The return to play program must be individualised based on progress, rather than the number of days since the incident.
- The earliest that the player may return to play (once they have completed a graded loading program and have obtained medical clearance) is on the 21st day following the concussion (where the day of concussion is designated day “0”, see Figures 3 and 4). This means that a player who is concussed in a match on a Saturday will miss at least the next two Saturday matches and will only be able to return to play on the third Saturday (i.e. the 21st day after the concussion was sustained) if they have recovered according to the protocols and have been medically cleared to return to play. In many cases, recovery will be slower than the minimum 21 days.

What is Concussion:

- Concussion should be suspected when there is a possible mechanism of injury (e.g. direct knock to the head or forceful impact to the body) that may have been observed or reported, and/or the player exhibits any one or more visual signs or reports any symptoms.
- In many cases, the trainer may not see exactly what happened and the possibility of a concussion should be kept in mind.
- The key to recognising concussion is looking, asking and listening, and then monitoring the player for any changes over time.

Look for visual clues suggesting a possible concussion. These include:

- | | |
|---|---|
| i. Loss of consciousness or responsiveness | ii. Lying motionless on the ground/slow to get up |
| iii. Vomiting | iv. Tonic posturing or impact seizure |
| v. Unsteady on feet/balance problems or falling over/incoordination | vi. Grabbing/clutching of the head |
| vii. Dazed, blank or vacant look | viii. Confused/not aware of plays or events |
| ix. Impaired memory (unable to recall events leading up to or following the injury) | x. Facial injury |
| xi. Player does not seem like their normal self | |

Loss of consciousness, confusion and memory disturbance are all classic features of concussion. The problem with relying on these features to identify a suspected concussion is that they are not present in every case.

Ask about (and listen for) symptoms reported by the player. Symptoms that should raise suspicion of concussion include:

- | | |
|------------------------------------|--|
| i. Headache | ii. Nausea or feeling like vomiting |
| iii. Blurred vision | iv. Balance problems or dizziness |
| v. Feeling “dinged” or “dazed” | vi. “Don’t feel right” |
| vii. Sensitivity to light or noise | viii. More emotional or irritable than usual |
| ix. Sadness | x. Feeling nervous or anxious |
| xi. Neck pain | xii. Feeling slowed down |
| xiii. Feeling like in a fog | xiv. Difficulty concentrating |
| xv. Difficulty remembering | |

Removing the player from the match or training

- The basic rules of first aid should be used when dealing with any player who is unconscious or injured (see below).
- Removing the conscious player from the match or training session allows the first aid provider time and space to assess the player properly. Ideally, the assessment should take place in a quiet, distraction-free environment, such as the change rooms.
- **Any player with a concussion or suspected concussion must be immediately removed from practice or play and not be allowed to return in the same match or training session.** Do not be swayed by the opinion of the player, teammates, trainers, coaching staff, parents or others suggesting a premature return to play.

For teams with a medical doctor on the sideline

- For teams with a medical doctor on the sidelines **who has experience in the management of concussion in sport, and has an ongoing role in the care of the players**, the Sport Concussion Assessment Tool 6th Edition (SCAT6) can be used in the assessment and management of the player.
- The player should be removed from the field and must be assessed in a quiet distraction-free environment (such as the team rooms) with the player in a resting state.
- The player should then be thoroughly assessed, including the use of the SCAT6.
- The time taken to complete the SCAT6 is at least 10 minutes.
- If the diagnosis of concussion is confirmed following assessment, then the player must not be returned to play or training on the day.
- In cases where the doctor has conducted a thorough sideline assessment and is satisfied that the player does not have a concussion, then the doctor can clear the player to return to play.
- The clinical features of concussion may be delayed or evolve over several hours. Consequently, in any cases where there is uncertainty about the diagnosis after an initial assessment, the player must be managed conservatively on the day of injury (i.e. not returned to play).
- Furthermore, all players who have had a concussion assessment during the match and are returned to play must be regularly medically assessed during the match and when clinically indicated undergo

repeat SCAT6 assessment after the match (or the following day).

- The doctor is expected to maintain comprehensive notes on any assessment conducted on the players under their care.

For teams with allied healthcare practitioners involved in the care of players

- Experienced allied healthcare practitioners (e.g., physiotherapists, osteopaths, chiropractors) are an important part of the team in the recognition and management of concussion. Allied healthcare practitioners who are familiar with the use of the SCAT6 (including its interpretation, strengths and limitations) may use the tool in the initial assessment and to help guide the progress of players through the return to play protocols. It is important to note however that the confirmation of the **diagnosis of concussion** and **clearance** before return to full contact training **must** still be made by a **medical doctor**.

For teams without an allied healthcare practitioners involved in the care of players

- Tools such as the Concussion Recognition Tool 6th edition (CRT6) and the HeadCheck App should be used to help identify a suspected concussion.
- The AFL has also developed a Match Day Head Injury Assessment Tool and Referral Form for community competitions to assist in the recognition and management of concussion ([afl-community-concussion-guidelines](#) - see Appendix 2). The form also ensures that important information about the injury and the player's initial symptoms are communicated accurately and completely to the doctor assessing the player.
- It is important to note that brief sideline evaluation tools are not intended to replace a more comprehensive medical assessment and should never be used as a stand-alone tool for the management of concussion.
- A pre-match/pre-training checklist should be printed and provided to trainers and other staff involved in the care of players. The checklist should include contact details for:
 - Local hospital emergency departments,
 - Ambulance services (000) and access to the venue, and
 - Local general practices.
- The pre-match checklist should also be provided to trainers and medical staff of the away team, who are likely to be less familiar with local medical services.

1. Process for WAFL Clubs

- a) A Player suspected of having suffered a head injury/concussion or is knocked unconscious shall:
 - i. Be assessed by any Healthcare Practitioner (AHPRA registered health care practitioner with appropriate training and experience in concussion assessment and management) using the Sport Concussion Assessment Tool ([SCAT6](#)), preferably within 10 minutes of the incident.
- b) Any player suspected of a Head injury or Concussion (match day and/or training session) must undertake a [SCAT6](#) by health practitioner (with appropriate training and experience in concussion

assessment and management) and the information uploaded to the WAFL Online system with all available information, including but not limited, [SCAT6](#) document, video evidence and scheduled date return to play.

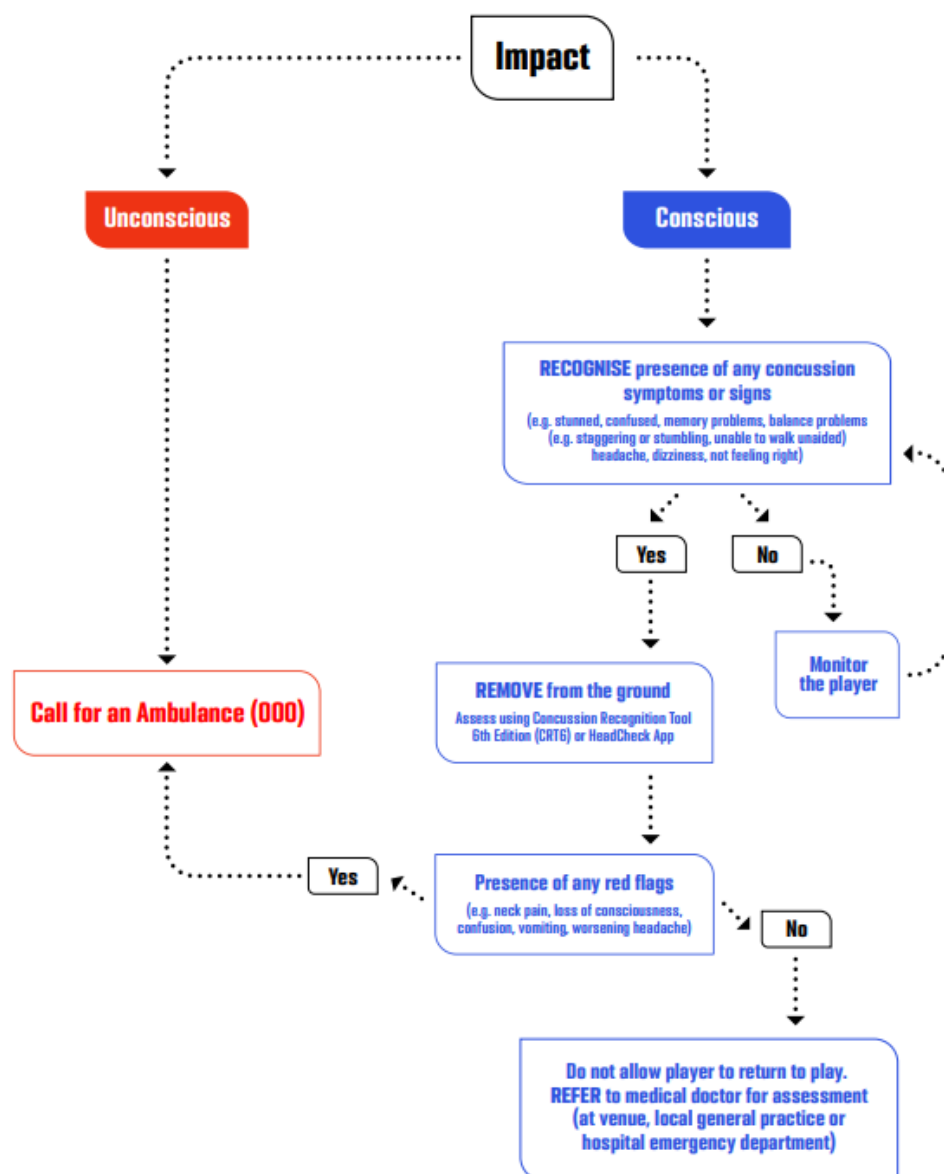

- i. All documents are required to be uploaded within 12 hours of the incident occurring.
- c) Any Player who **FAILS** the [SCAT6](#) assessment:
 - i. Is not permitted to return to the playing surface; and
 - ii. Must follow the 21 Day return to play protocol.
- d) In following the AFL Concussion Management Policy, the earliest that a WAFL Player can return to play after a concussion is on the 21st day after the day on which the concussion was suffered.
 - i. The day on which the concussion is sustained is Day 0. Day 1 of the minimum 21-day protocol is the day after the match/ training session.
 - ii. For the avoidance of doubt, AFL Contracted Players competing in the WAFL competitions will follow the AFL return to play protocols which has a mandatory minimum 12-day return to play guideline.
 - AFL Contracted Players will have the benefit of 'Advanced Care Settings' to closely monitor the recovery and progression through the minimum 12-day protocol, before returning to play in the WAFL competition.
- e) A Player whose name is submitted to the WAFL as having **FAILED** the [SCAT6](#) is **NOT** permitted to play in the WAFL until the WAFL competitions receives a Medical Certification clearing them to play.
 - i. For the avoidance of doubt, the [Concussion Return to Play](#) document must be signed and lodged (uploaded) to the Players Sportix Profile.
- f) Non-compliance in uploading the information will result in a penalty under Rule 15.
- g) Any player who has sustained a concussion prior to Monday 18th March is subject to the previous 12-day protocol.
 - i. Any player who has been diagnosed with a concussion on or after Monday 18th March will be subject to the 21-day concussion protocol.

Figure 1:

How to Recognise concussion:

Figure 2.
Summary of the Initial Sideline Management

Note: For any player with loss of consciousness, basic first aid principles should be used (i.e. danger, response, airways, breathing, circulation). Care must also be taken with the player's neck, which may have also been injured in the collision. The unconscious player must not be moved by anyone other than a medical professional or ambulance officer. An ambulance should be called, and these players transported to hospital immediately for further assessment and management.

Stages of Graded Return to Play

1

STAGE 1: RELATIVE REST

ACTIVITY	DURATION	CRITERIA TO PROGRESS
Relative rest Gentle day-to-day activities - as guided by symptoms. Minimise screen time (TV, computer/homework/work, phone/social media and gaming)	1-2 days	Nothing specific - should progress after 1-2 days

2

STAGE 2: RECOVERY

ACTIVITY	DURATION	CRITERIA TO PROGRESS
i. Daily activities that do not provoke symptoms Increase day-to-day activities - as guided by symptoms. Include short walks. Limit screen time (TV, computer/homework/work, phone/social media and gaming) -duration depends on symptoms No team training drills. No resistance training.	Minimum 1 day	Progress if concussion-related symptoms resolved or not worsened from their previous level (either during activity or by the next day)
ii. Light aerobic exercise Start light activity e.g., walking, jogging or cycling at a slow to medium pace. Aim for about 50-60% maximum heart rate (can carry a conversation when exercising) No team training drills. No resistance training.	Minimum 1 day	Progress if concussion-related symptoms resolved or not worsened from their previous level (either during activity or by the next day)
iii. Moderate aerobic exercise Start moderate aerobic exercise e.g., walking, jogging or cycling at a medium pace. Aim for about 60-80% maximum heart rate. May continue with moderate aerobic exercise over a number of days/sessions if still has symptoms related to concussion. No team training drills. No resistance training.	Minimum 2 days	Progress if concussion-related symptoms resolved or not worsened from their previous level (either during activity or by the next day)
iv. High intensity aerobic exercise Start high-intensity aerobic exercise (e.g. running or cycling at high intensity) Up to maximum heart rate. No team training drills. Can commence gentle resistance training (50-75% of usual loads)	Minimum 2 days	Progress if a) Complete recovery of all concussion-related symptoms and signs at rest and with high intensity training; b) Have returned to school or work (without any need for modifications);

3

STAGE 3: GRADED LOADING PROGRAM

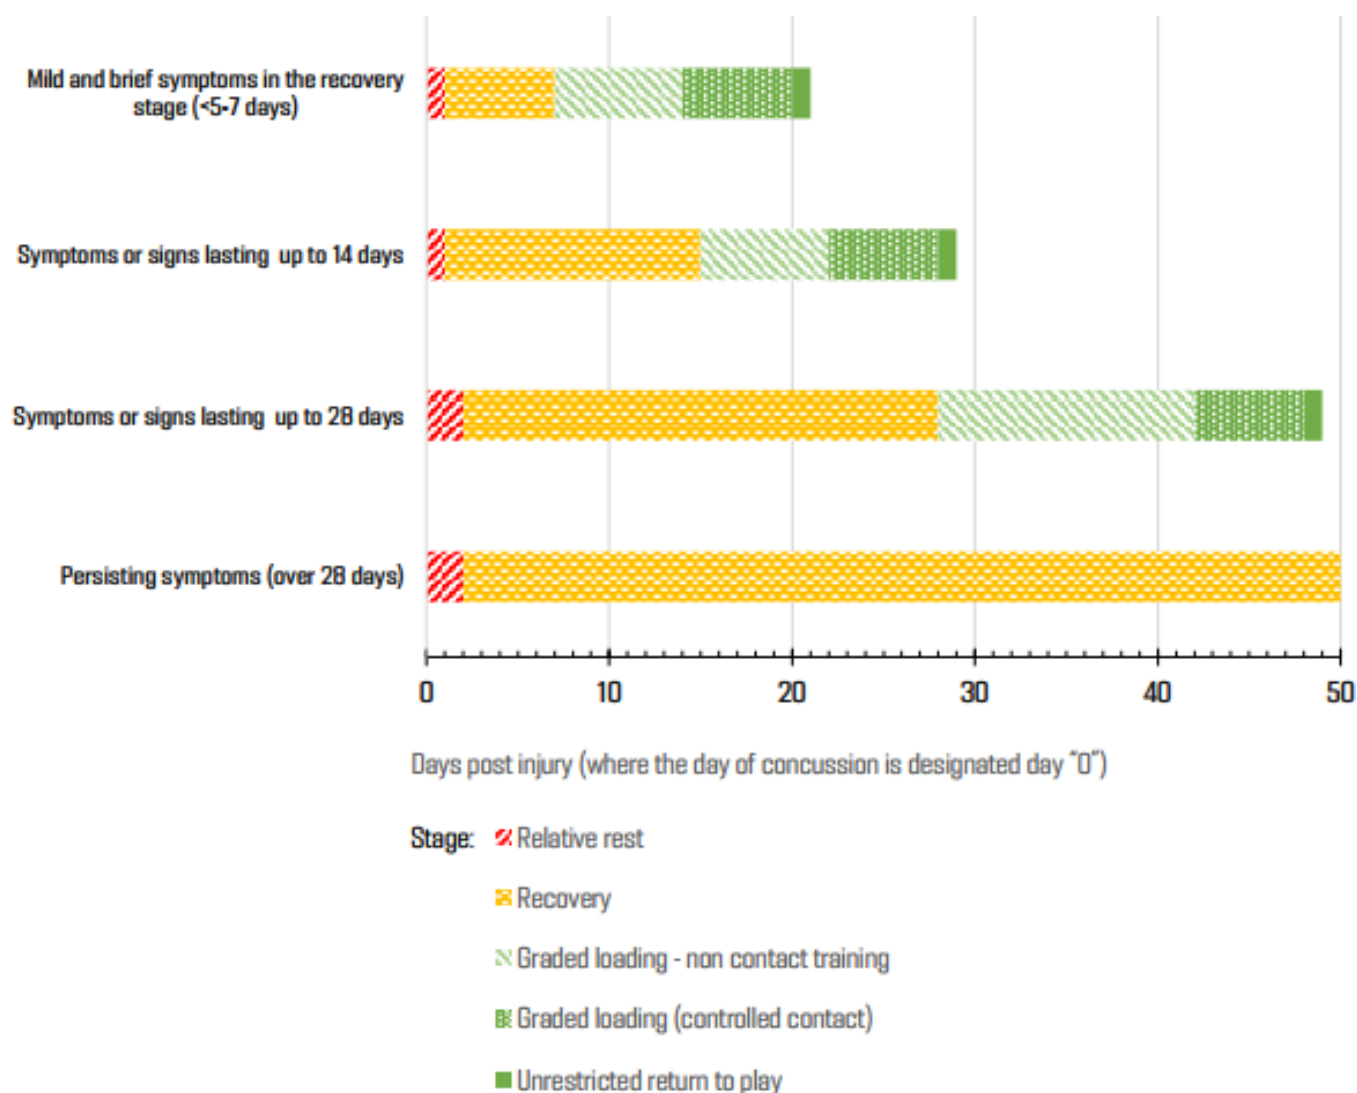

ACTIVITY	DURATION	CRITERIA TO PROGRESS
i. Non-contact training Return to full team training sessions - <u>non-contact activities only</u> Minimum of 2-3 training sessions with no consecutive days of football training (to allow for rest and recovery)	Minimum 7 days	Progress if remaining completely free of any concussion-related symptoms*
ii. Limited contact training Full team training allowed -able to participate in drills with incidental and/or controlled contact (including tackling) <u>No consecutive days of training (i.e. must have 'non-contact activity' days in between training sessions)</u>	Minimum of 7 days to progress through graded contact training	Progress if: a) Remaining completely free of any concussion-related symptoms* b) Player is confident to return to full contact training c) Player has medical clearance to return to full contact training
iii. Full contact training		Progress if: a) Remaining completely free of any concussion-related symptoms* b) Player is confident to return to play

4

STAGE 4: UNRESTRICTED RETURN TO PLAY

*If concussion-related symptoms reappear at any time in stage 3 (Graded loading program) then the player should go back to the previous symptom-free step in stage 2 (Recovery) and seek medical review from a doctor.

Examples of Return-To-Play Timelines Based on Patterns of Recovery Following Concussion*

*The timing of return to play depends largely on the duration of the recovery stage, which is variable in length from injury to injury and person to person.

Schedule 12 Protective Equipment Policy

Laws of the Game

- a) Law 9 of the Laws of the Game regulates the management and use of Protective Equipment in Australian Football.
- b) Schedule 12 is supplementary to Law 9 of the Laws of the Game and aims to assist Controlling Bodies to apply Law 9 of the Laws of the Game and regulate the use of Protective Equipment

Categories of Protective Equipment

- a) Protective Equipment will be categorised as follows:
 - i. Category 1 Protective Equipment
 - ii. Category 2 Protective Equipment; and
 - iii. Category 3 Protective Equipment
- b) The three (3) categories of Protective Equipment are defined in Schedule 12

Using Protective Equipment

- a) During a match, a Player may use:
 - a. Category 1 Protective Equipment: no prior notification, inspection or approval is required;
 - b. Category 2 Protective Equipment: inspection of Class 2 Protective Equipment by relevant Controlling Body required prior to the relevant Match;
 - c. Category 3 Protective Equipment: prior approval of the WAFC required in accordance with Schedule 12 c) ii)
- ii. The WAFC may only grant approval under Schedule 12 c) i.c. following a physical inspection of the Category 3 Protective Equipment. To assist the WAFC with its assessment, Players are encouraged to provide medical certification from a Qualified Medical Practitioner which outlines the clinical need for the Category 3 Protective Equipment and confirms that it does not pose any unreasonable safety risk to the Players or other Person's.
- iii. Any approval granted in respect of Category 3 Protective Equipment may be withdrawn by the WAFC at any time.

Prohibited protective equipment

- iv. Equipment with any of the following characteristics will not be classified as Protective Equipment and must not be approved by the WAFC:

 - c. Equipment with an exposed point, strap or edge;
 - d. Equipment with sharp edges;
 - e. Equipment made with hard plastic (other than Thermoplastic where there is sufficient exterior padding)

Mouthguards

- v. Mouthguards have a definite role in preventing injuries to the teeth and face and for this reason they are strongly recommended at all levels of football. Mouthguards should be worn for all Matches and contact training sessions.
- vi. Dentally fitted laminated mouthguards offer the best protection and should be used by all the Players. "Boil and Bite" type mouthguards are not as effective and, in rare cases, can dislodge during play and block the airway.

Spectacles

- vii. Players who wish to wear spectacles during Matches and training sessions should wear spectacles with plastic frames and lenses. A band must also hold the spectacles on securely.

- ii. No Sponsor Advertising shall be placed or displayed on any item of Protective Equipment.
- iii. A field Umpire may order from the Playing Surface a Player who:
 - a. wears or uses Protective Equipment in a Match which has not been approved by the WAFC; or
 - b. is wearing or using an approved item of Protective Equipment, if they are satisfied that such Protective Equipment has, during the Match, become dangerous or increased the risk of injury to the Player wearing or using the Protective Equipment or the other Players competing in the Match.
- iv. Where a Player is ordered from the Playing Surface under this Regulation:
 - a. an Interchange Player may replace the Player ordered from the Playing Surface; and
 - b. the Player ordered from the Playing Surface may only re-enter the Playing Surface if he or she is no longer wearing or using the Protective Equipment or the Umpire is satisfied that the Protective Equipment is no longer dangerous.
- v. Where a Player refuses to or does not immediately leave the Playing Surface when ordered to do so by a field Umpire, the following shall apply:
 - a. the field Umpire shall warn the Player that a free kick will be awarded and that he or she may be reported if he or she does not leave the Playing Surface;
 - b. if the Player still refuses to leave the Playing Surface, the field Umpire shall award a free kick to the Player of the opposing Team at a point nearest to where the warning was given or where the football is at the time, whichever is the greatest penalty against the offending Player's Team; and
 - c. if the Player still refuses to leave the Playing Surface:

Schedule 13 Broadcasting Policy

- a) Nothing in this Broadcasting Policy shall in any way undermine the terms of the Licence Agreement as applied to the relevant WAFL Club.
- b) The WAFL Club must fulfil all obligations set out in the Licence Agreement so far as they apply, including but not limited to in relation to sponsors and advertising when applying this Broadcasting Policy.
- c) No Club shall grant any Broadcasting Rights in respect of a WAFL match to a third party.
- d) In the event that a Club breaches this Policy, the following penalties will apply:
 - i. any Club breaching Schedule 13 in respect of a WAFL Match will lose all premiership points and these will be awarded to the opposition team, where applicable;
 - ii. any Club breaching Schedule 13 will record a match score of zero (0) points for and maintain the original opposition's score as their points against, however the team in opposition will maintain the original match percentage (the scores stand);
 - iii. individual Player statistics for the match will stand as recorded, meaning all Players receive a match credit for games totals. Match statistics are included in Player tallies and any reports to be assessed by the WAFL Tribunal stand;
 - iv. a fine of \$50,000 may be imposed by the Board of the WAFC.
- e) All matches (including broadcast matches) will be captured by a contractor approved by the WAFC. The vision will be made available to clubs by the first working day following the match.
- f) The vision capture of any match by a third party, other than the approved WAFC contractor, will require a written application and approval by the WAFC. Should the approval be granted to capture match footage of any grade, then all vision files must be provided to the WAFC upon request or by the first working day of the match.
- g) Should approval be granted to a third party to capture any match, this will be subject to the home team approving that there is space available at the venue to capture the match. It is the responsibility of the third party to contact the Home Club direct. Priority will be given to WAFC approved media outlets.
- h) Any breach of this schedule (e-g) or any policy contained in these Rule may be penalised in accordance with Rule 14 or at the absolute discretion of the WAFC .

Schedule 14 Assessment Criteria for WAFL Playing Surface

In regard to the assessment and suitability of sports fields for WAFL football the following minimum requirements are recommended.

Turf Cover

In terms of turfgrass coverage, ideally there will be a complete coverage of grass across the field. The loss or thinning of the grass coverage must not result in surface instability, loss of traction or excessive hardness. Any unstable or aesthetically poor areas due to a loss of turfgrass coverage must be replaced with an appropriate turf replacement product that has sufficient stability to allow immediate play following laying.

Levelness of the surface

Playing surfaces must be level or even in that there are no sharp changes in levels that will affect footing. This includes but not exclusive to; holes, localised depressions, cracks, gaps between turf rolls and elevation changes between cricket wickets and the outfield.

There should be no obvious depressions in the surface. Of most concern are the depressions where there is a sudden or sharp drop such as what will occur with a hole. A hole, in the WAFL's opinion, is a depression greater than about 10cm x 10cm in area and greater than about 2-5cm in depth with sharp or well defined sides.

Holes must be repaired with a turf block using a "turf doctor" or similar device that provides a turf block that is 15cm x 15cm in area and about 20cm in depth. Repair with specialist thick turf that is a minimum of 5cm thick and 200cm x 100cm (2m x 1m) in area, is also permissible.

Under no circumstances should holes be filled with loose sand.

Slight undulations that occur over a metre or more are generally of no concern.

Surface stability

Ideally there will be good footing or surface "grip" and no loose turf sods (particularly where new turf sods have been laid). It is important to note that the nature of the sport and the foot wear the players wear is such that some turf/grass dislodgement is always a possibility.

Irrigation

The selected field must be irrigated and there must be a high degree of uniformity in water distribution. That is, there must not be dry areas and wet areas across the surface.

The selected fields must not be affected by water restrictions as this is the main tool in controlling the quality and condition of the turf and surface hardness.

Sprinklers

Sprinklers must not protrude above the soil level, in fact ideally about 10-15mm below, and the area surrounding the sprinkler must be level. If the sprinklers are lower than 15mm below the surface the void must be filled with crumbed rubber. Sprinklers must have rubber or soft tops and where value boxes occur within 5.5 metres of the boundary fence line they must be covered with an AFL approved synthetic turf.

Surface hardness

Surface hardness must be monitored using the Clegg Impact Soil Tester (CSIT) using the 2.25kg hammer with a drop height of 455 mm.

The hardness of the surface as measured by the first drop of the CIST will ideally be within the preferred range (Table 1) when undertaken at 45 locations across the outfield.

Any areas of synthetic turf within 5.5 metres of the boundary line must also conform to the standards of natural turf for surface hardness. If areas are unacceptably hard that must be rectified by either replacing or rejuvenating the synthetic turf with an AFL approved product.

Table 1: Classifications for surface hardness using the 2.25 kg Clegg Impact Soil Tester

Performance Indicator	Unacceptably Low	Low Normal	Preferred Range	High Normal	Unacceptably High
Surface Hardness (gravities)	<30	31 – 55	56 – 75	76 – 120	>120

Summer surface management

Pre-Season Competition and AFLW Matches are typically scheduled throughout the warmer months of the year where evaporation and heat can lead to increased surface hardness. Regular monitoring of surface hardness and irrigation performance is required in the lead up to and during these competitions. Prior to hosting Matches, monthly surface hardness readings should be undertaken using a Clegg hammer and the results recorded, these results should be made available at the request of the WAFL. The surface should be de-compacted if hardness exceeds the preferred range. Regular decompaction may be required to maintain surface hardness within the preferred range and assist with providing uniform surface moisture. Irrigation system performance should be monitored to ensure uniform delivery of irrigation across the surface and avoid isolated dry patches which can contribute to excessive surface hardness.

Surface Traction

Surface traction will be measured by using the studded boot device at 13 locations across the field, although only 12 are taken if there is a cricket wicket table present. The traction device consists of a central component which is a 150 mm diameter horizontal disc into which six (6) football studs (15 mm long) are fitted equidistant from the central vertical shaft. The disc is weighted with 40 kg and is dropped onto the playing surface from a height of 50 mm to ensure stud penetration. The torque required for the rotating disc to tear the turf is measured with an industrial torque wrench.

The traction of the surface should be within the preferred range (Table 2) and have a low variability (i.e. low standard deviation from the mean). Any areas of synthetic turf within 5.5 metres of the boundary line must also conform to the standards of natural turf for surface traction. If areas are unacceptably high they must be rectified by either replacing or rejuvenating the synthetic turf with an AFL approved product.

Table 2: Classifications for surface hardness using the Studded Disc Apparatus

Performance Indicator	Unacceptably Low	Low Normal	Preferred Range	High Normal	Unacceptably High
Traction (Nm)	<20	21 – 39	40 – 55	55 – 74	>75

Surface consistency

This is an all-encompassing overview of the field where we look for inconsistencies in turf cover, firmness, stability and levelness.

Cricket wickets

Cricket wickets on grounds used for WAFL & WAFLW football may present a difference in soil type, clegg hammer readings and turfgrass coverage compared to the remainder of the field.

Cricket wickets must meet the following minimum criteria;

1. There must not be a sharp drop or distinct change in levels between the edge of the wicket table and the surrounding outfield. The transition from the wicket table onto the outfield should be no more than 1:40 or 75 mm over 3.0 metres (McIntyre and McIntyre, 2001).
2. The preparation of wickets for play generally results in a diminished turfgrass coverage. The last used wicket strip should have at least 2 weeks (preferably longer) recovery before being used for football Matches. The hardness (measured using the Clegg Impact Soil Tester) of this strip must be no greater than that for the remainder of the wicket table and as similar as possible to the outfield. It should be noted that at some major venues that host both AFL football and first class cricket fixtures, including Sheffield Shield and International fixtures, may not be able to have a complete grass coverage because of the

overlap between of seasons/fixtures. The onus will be on the venue to ensure that the surface hardness of the wicket table though meets the necessary criteria outlined in Table 1.

Artificial Wickets

Artificial wickets will be covered with turf so that a flat, even and solid surface is produced. The new turf must be fixed and allow no greater movement than the surrounding surface.

Where this cannot be achieved the artificial surface **must**

1. be removed; and
2. **Not be** covered with rubber matting as this may shift during play.

Schedule 15 Lightning Policy

1. AS1768-2007 – Lightning Protection

The Football Body should comply with AS1768-2007, entitled The Lightning Protection Standard, published on 10 January 2007 (Lightning Standard). While the Lightning Standard will not necessarily prevent damage or personal injury due to lightning, it will reduce the probability of such damage or injury occurring.

2. 30/30 Safety Guideline

In the absence of specific information from weather radar, a lightning location system, or a specialised warning device then the 30/30 Safety Guideline should be used.

According to the 30/30 Safety Guideline, when lightning is considered to be a possible or actual threat to an Australian Football Match the following procedures are applicable:

- a) The observation of approaching storm clouds, the first flash of lightning or clap of thunder, no matter how far away should heighten lightning awareness. The level of risk depends on one's location (direction and distance) relative to the storm cell and the direction in which the storm system is traveling.
- b) A simple method of determining the distance to the storm cell is to measure the time elapsed from when the lightning flash is observed and when the associated clap of thunder is heard.
- c) Light travels faster than sound. Assuming that the light from the flash reaches the observer instantaneously, and knowing that sound takes approximately three (3) seconds to travel one (1) kilometre, the distance can be determined by using the following rule:
 - i. Distance (in Km) = Time from observing the flash to hearing thunder (in 3 seconds)
- d) It is important to remember that lightning may be obscured by clouds so it must be assumed that when thunder is heard, lightning is in the vicinity. In such cases, careful judgment must be used to determine whether a threat exists
- e) The first part of the "30/30" rule is a guide to the postponement or suspension of activities. Most experts agree that the accepted "safe" distance from lightning is greater than 10km. This means that as the time interval between observing the flash and hearing the thunder approaches 30 seconds, all those in exposed areas should be seeking or already inside safe shelters. A storm cell with lightning activity within 10km constitutes a threat.
- f) The second part of the 30/30 rule provides the criteria for the resumption of activity which is applicable to decisions made with BOM access as well. Here, it is recommended that people wait a minimum of 30 minutes after the last sighting of lightning or sound of thunder. This figure is based on the observation that the typical storm moves at about 40km/h. Thus, waiting 30 minutes allows the thunderstorm to be about 20km away, minimising the likelihood of a nearby lightning strike.
- g) It is important to emphasise that blue skies and lack of rainfall are not adequate reasons to breach the 30-minute minimum return-to-activity rule.

3. General Lightning Safety Guideline

- a) Prior to Match Day
 - i. where weather forecasts provide important warning of possible thunderstorm activity the Football Body should monitor weather forecasts commencing Tuesday prior to scheduled Matches using the Bureau of Meteorology (BOM) website. Note should be taken off any warnings posted.
 - ii. The Football Body should continue to monitor the BOM site in the days leading up to the match.
- b) Match Day

- i. Increased awareness of lightning risk should continue on the Match day until the activity has finished.
- ii. Teams and officials should proceed to the venue unless otherwise directed.
- iii. If lightning is predicted within no less than 10km of the match venue at the scheduled starting time the game commencement time may be delayed by up to 60 minutes.
- iv. This decision to delay or suspend play as well as resume play will be made by the Umpire based on information obtained from the BOM and discussions with the Clubs.

4. Club Responsibility

All Clubs competing in a competition administered by the Football Body should monitor environmental factors such as lightning both in Matches and at any Australian Football training session administered by the Club. The Club should assess the lightning risk by reviewing information provided by the BOM.

- a) The following general guidelines should also be followed:
 - i. If a lightning threat emerges, the nominated Club Official must contact all relevant coaching, rehabilitation and training staff and provide updates on a regular basis.
 - ii. A decision to delay, suspend or resume training should be made in consultation with relevant coaching and administration staff.
 - iii. If players are training when the lightning threat becomes real, then they should leave the training venue immediately and take shelter inside a building or metal framed car. They should not shelter under or near trees.
 - iv. Once the storm's path has been reassessed, there must be a minimum of 30 minutes elapsed before returning to training.
When there is no access to the BOM, the "30/30" rule serves as a guide for the suspension and subsequent resumption of activities.
